## Complete Reset for Optional Adaptor.

- Press Setup and Check simultaneously until you see all three lights went OFF for an instant [And then resume blinking].
- Take a pin and press into RESET at the side.
- Now, only STATUS and Power should be ON, the LINK should not have any lights.

## Complete Reset for Built-In.

- Confirm the Wi-Fi LED of the indoor unit is ON/blinking.
- Do not point your remote control at the unit.  
Take your remote control and press  and HOLD for 5 secs until you see "1" and then scroll to "5".
- Now point remote control at the unit and press "SET" for more than 5 seconds to hear a beep sound.

- After complete reset, the Wi-Fi LED will be OFF.
- Point your remote control at the set and press  to turn ON Wi-Fi LED again.
- The Wi-Fi LED should be blinking at a slow interval and you can set new air conditioner again.
